

24XL

JUMBO - RAT GLUE TRAY

The 24XL is the largest glue tray in the Catchmaster[®] line of rodent control products. At 81 sq inches of catching power, the 24XL Glue Tray provides twice the capture area as the 48R Series. Great for use as a clean out tool underneath large undisturbed areas such as vending machines, cabinets, commercial counters, attics, etc. Like all of the Catchmaster[®] rodent trays, the 24XL is effective for one full year when used under normal conditions.

96M

MOUSE GLUE TRAY

Our 96M Mouse Glue Tray has the largest catching surface in the industry per tray—over 9 sq. in. of catching power.
